There is no registration fee. Additional information and registration forms are available on request to: Room 1417, Royal Alexandra Hospital, Edmonton, Alta.

**CANADIAN ASSOCIATION
FOR RESEARCH
IN TOXICOLOGY**

A change in name of the Canadian Association for Research in Drug Safety involves substitution of the word "Toxicology" for "Drug Safety".

Organized two years ago, the Association has been concerned with toxicology in its broadest sense, and this change in name reflects in part its growth and realignment.

The Canadian Association for Research in Toxicology (Association Canadienne pour la Recherche en Toxicologie) has set itself three main objectives: (1) to provide a forum in which Canadian scientists directly concerned with toxicology can exchange ideas and information; (2) to encourage participation in co-operative laboratory studies on methodology; (3) to serve as an advisory group to other groups concerned with the problems of toxicology and safety.

Membership is available to those professionally qualified and who are interested and active in toxicology. Application forms may be obtained from the Secretary-Treasurer: J. D. McColl, Ph.D., P.O. Box 959, Montreal 3, Quebec.

**SYMPOSIUM ON
IMMUNOLOGICAL ASPECTS
OF POLYMORPHISM,
QUEBEC, MAY 31-JUNE 3**

An International Symposium on Immunological Aspects of Polymorphism will be held at the School of Medicine, Laval University, Quebec City, May 31-June 3, 1967, under the auspices of the Canadian Society for Immunology. Four topics will be discussed: polymorphism of immunoglobulins, polymorphism of enzymes, deficiency diseases as an aspect of polymorphism, and polymorphism of cell membranes. Speakers of international renown from Canada, the United States, England, Scotland, France, Italy, Holland and Germany will participate. A program and further information may be obtained by writing: Symposium International sur les Aspects Immunologiques du Polymorphisme, a/s Docteur Didier Dufour, Université Laval, Québec 10e, P.Q.

**ACP COURSE ON
ARTHRITIS AND RELATED
DISORDERS, NEW YORK,
FEBRUARY 27-MARCH 3**

The American College of Physicians (ACP) will present a five-day course, "Arthritis and Related Disorders", from February 27 to March 3, 1967, at the New York University Medical Center in New York City.

This course is designed for physicians already familiar with the basic clinical features of this group of diseases. It attempts to cover the most important categories, but emphasis is placed on information which is relatively new or on old viewpoints which need restatement, especially newer concepts of etiology, pathogenesis and management.

The fee for ACP members is \$60; for non-members, \$100. Registration forms and further information may be obtained from: Edward C. Rosenow, Jr., M.D., F.A.C.P., Executive Director, American College of Physicians, 4200 Pine Street, Philadelphia, Pa. 19104, U.S.A.
